## ABOUT US

Bravo™ Lubes has been delivering the best top quality engine oils and lubricants since its inception. Bravo™ Lubes has grown rapidly over the past few years due to its quality within UAE and in the continent of Africa and Asia . Our products are of international standards and our business operations provides worldwide assurance, improved productivity, improved environmental products and focused on quality and delivery. Bravo™ Lubes is manufactured by using extensive technology.

## Vision

Our vision is to be the leading brand of premium quality petroleum products to serve globally and to enhance the perspectives of natural resources and to preserve our planet for future generations.

## MISSION

Our goal is to deliver low cost efficient products to maximize client satisfaction.

## TYPES OF LUBES (WE MANUFACTURE)

We are manufacturing the lubes as bellow.

### Automotive Lubricants

- Engine Oils
- Gear oils
- ATF (Automatic Transmission Fluid)
- Greases
- Hydraulic oils
- Coolants (Anti-freeze)
- Brake Fluid

### Industrial Lubricants

- Hydraulic oils
- Compressor oils
- Turbine oils
- Cutting oils
- Machine oils
- Grease EP (Extreme Pressure)

# Engine Oils:

## Bravo™ Lubes Diesel Essence Oil HD-50 API: CC/SC

**Bravo™ Diesel Essence Oil HD-50 API: CC/SC** Diesel Engine Oil is a high-quality lubricant specifically tailored for use in diesel engines. This premium oil is formulated to provide superior protection against wear and tear, as well as excellent engine cleanliness and extended service intervals. The **HD-50** viscosity grade ensures proper flow, even under extreme operating conditions such as high temperatures or heavy loads. Additionally, the oil is made with advanced detergents and dispersants that keep harmful contaminants at bay, preventing deposits from forming on critical engine parts. For fleet owners or individuals seeking optimal performance from their diesel engines, Bravo™ Lubes' **HD-50** Diesel Engine Oil offers unparalleled protection and reliability. Its competitively-priced package makes it an ideal choice for anyone looking to improve the longevity of their vehicle's engine while minimizing maintenance costs.

## Bravo™ Lubes Motor OIL SAE 40 API: SF/CD

**Bravo™ Motor oil SAE 40 API: SF/CD** is High Performance motor oil designed to keep your engine running like new by providing exceptional wear protection, cleaning power and overall performance. A fuel economy, universal motor oil, developed according the most recent technology. It makes great fixing between the cylinder and chamber, safeguards the motor at various temperatures and keeps up with ideal consistency for the best motor performance. SAE 40 API: SF/CD is gives great wear control to safeguard the motor in various atmospheric conditions and unforgiving applications, protecting the motor in cold climate fire up and warm climate conditions.

## Bravo™ Lubes Gear Oil

SAE-90 API : GL-1

SAE 140 API : GL-1

**Bravo™ Gear Oil** is a high-quality, mineral-based gear lubricant specifically formulated for use in manual transmissions and non-synchronized gearboxes requiring straight mineral oils without EP (Extreme Pressure) additives. This oil provides reliable performance and protection for manual gear older vehicles, agricultural machinery, and industrial equipment.

## Hydraulic Oil

ISO 32

ISO 46

ISO 68

**Bravo™ Hydraulic Oil** is a premium quality, mineral-based hydraulic fluid formulated to deliver excellent performance in hydraulic systems operating under moderate conditions. It offers outstanding protection against wear, rust, and oxidation, ensuring smooth and efficient system operation. It is used in vehicles, equipment's and machines having hydraulic system.

|----------|---------|---------|--------|--------|---------|

## Bravo™ Lubes BrakeFluid DOT-3

**Bravo™ Brake Fluid DOT-3** is a high-performance, non-petroleum-based hydraulic brake fluid designed to ensure the smooth and reliable operation of your vehicle's breaking system. It meets or exceeds the requirements set by global automotive manufacturers and is compatible with most vehicles that use a glycol-based fluid.

## Bravo™ Lubes Automatic Transmission Fluid (ATF) Type -A

**Bravo™ ATF (Automatic Transmission Fluid)** is a superior quality automatic transmission fluid formulated with high viscosity index base oils and selective additive package to obtain anti-wear, anti-oxidant, anti-foam properties and low temperature fluidity. It is specially engineered for automatic gears and power steering's in passenger cars, light trucks and commercial vehicles. It is used in automatic transmissions, hydraulic systems of light and heavy vehicles.

## Bravo™ Lubes GREASES- MP-3 (Multi-purpose Grade-3)

### Automotive:

Grease lubrication plays a vital role in the automotive industry, where it is used in wheel bearings, chassis components, and various mechanical linkages. It withstands heavy loads, protects against corrosion, and provides excellent lubrication for extended periods, ensuring the vehicle's smooth functioning and durability.

### Industrial machinery:

In industrial settings, a wide range of machinery relies on industrial grease lubrication. Bearings, gears, conveyors, and chains in manufacturing plants, power generation facilities, and mining operations are often lubricated with grease. Grease provides reliable lubrication in high-load and high-speed applications, reducing friction and preventing premature wear.

## BRAVO™ Lubes COOLANTS

### Types of Coolants:

10 % Concentrated

30 % Concentrated

50 % Concentrated

100 % Concentrated

Our chemical-based radiator coolant is a specially formulated liquid designed to regulate the temperature of your engine. Typically, radiator coolant is a mixture of water and ethylene glycol (commonly known as antifreeze) or propylene glycol. The coolant also contains other additives that prevent corrosion of the metallic parts of the engine and improve heat transfer properties.
