

EXCELLENT PROTECTION
EFFICIENT ENGINE PERFORMANCE
ENHANCED FUEL ECONOMY

ABOUT US

PACE Lubricants has been delivering the best top quality engine oils and lubricants since its inception. PACE Lubricants has grown rapidly over the past few years due to its quality within UAE to a multinational companies and in the continents of Africa, Asia and Europe. Our products are of international standards and our business operations provides worldwide assurance, improved productivity, improved environmental products and focused on quality and delivery. PACE Lubricants is manufactured by using extensive technology.

VISION

Our vision is to be the leading brand of premium quality lubricant products to serve globally and to enhance the perspectives of natural resources and to preserve our planet for future generations.

MISSION

Our goal is to deliver top cost-efficient products to maximize client satisfaction.

TYPES OF LUBES (WE MANUFACTURE)

We are manufacturing the lubes as bellow:

1. Engine oils
 - i) Petrol Engine oil
 - ii) Diesel Engine oil
 - iii) Marine Engine oil
 - iv) Aircraft Engine oil
 - v) 2 Stroke /4 Stroke Engine oil
2. Gear Oil
3. Hydraulic Oil
4. Automatic Transmission Fluid (ATF)
5. Brake Fluid
6. Motorcycle Engine Oil
7. GREASES
8. Coolant (Anti-freeze)

OUR PRODUCTS QUALITY:

1. ENGINE OILS

i. Full Synthetic Oil

PACE fully synthetic Gasoline Engine Oil is specially formulated with full synthetic base oil and high-quality additives for ultimate engine protection and performance. It is use for various kinds of gasoline engines passenger cars, vans, SUVs, light duty trucks, pickups, jeeps and other similar vehicles. It gives ultimate engine protection in all driving conditions with low viscosity rapid of flow, low friction effectively contributes towards reducing fuel consumption. Fully synthetic oil can be used for all naturally aspirated, fuel injected, turbo charged car engines.

	SAE	0W20		SAE	5W30		SAE	10W40	
	API	SP		API	SN		API	CI-4	
PACKAGING SIZE (PLASTIC/METAL)	12X1LTR 24X1LTR 4X4 LTR 3X5 LTR 6X4 LTR 6X5 LTR 20 LTR 25 LTR 208 LTR								

ii. Semi Synthetic oil

PACE semi synthetic gasoline engine oil manufacture from high quality syn- thetic and mineral base oils with selected additives. it is the performance requirements of the latest models of cars and trucks. It meets performance requirements of most European, Japanese, and American passenger car manufacturers. It assures excellent engine protection in severe weather conditions, longer drain interval, low oil consumption and oxidation ability and it protect engines completely against wear, rust, corrosion heat stress and engine deposits.

SAE	0W20	SAE	5W30	SAE	10W40	SAE	20W50

PACKAGING SIZE (PLASTIC/METAL)	12X1LTR	24X1LTR	4X4 LTR	3X5 LTR	6X4 LTR	6X5 LTR	20 LTR	25 LTR	208 LTR

iii. Mineral Oil

PACE mineral oil is manufactured from high quality mineral base oil with selective additive. It meets performance requirements of most European, Japanese, and American passenger car manufacturers. It assures excellent engine protection in severe weather conditions, longer drain interval, low oil consumption and oxidation ability and it protect engines completely against wear, rust, corrosion heat stress and engine deposits.

2. Gear Oil

Gear oil is manufactured from high quality virgin base oil and selected extreme pressure additives, which allow maximum protection for automotive gears and industrial gears. It protects the gear from rust & corrosion and low temperature properties, also gives good start in cold weather. It is suitable for highly stressed gear boxes running at high temperatures.

SAE	90	SAE	140	SAE	85w140	SAE	80w90	SAE	250

PACKAGING SIZE (PLASTIC/METAL)	12X1LTR 6X4 LTR 6X5 LTR 24X1 LTR 4X4 LTR 3X5 LTR 20 LTR 25 LTR 208 LTR								

3. Hydraulic Oil

PACE Hydraulic premium quality oil formulated from high quality base oil and combined with ant-wear high quality additives that protects against wear, rust and corrosion. It is used in all kind of hydraulic systems running under the most severe conditions, such as machine tools, molding injection machines, presses, piston and gear pumps, heavy hydraulic equipments and many kinds of industrial and construction machineries.

PACKAGING SIZE (PLASTIC/METAL)	12X1LTR 6X4 LTR 6X5 LTR 24X1 LTR 4X4 LTR 3X5 LTR 20 LTR 25 LTR 208 LTR				

4. Automatic Transmission Fluid (ATF)

PACE ATF is a superior quality automatic transmission fluid formulated with high viscosity index base oils and selective additive package to obtain anti-wear, anti-oxidant, anti-foam properties and low temperature fluidity. It provides excellent protection against wear and its frictional properties gives consistent and smooth shift under a wide range of driving condition. It is specially engineered for automatic gears and power stirrings in passenger cars, light trucks and commercial vehicles. It is used in automatic transmissions, hydraulic systems of light and heavy vehicles.

TYPE	A	DEX	II	DEX	III	DEX	IV
PACKAGING SIZE (PLASTIC/METAL)	24X500ML	12X1LTR	6X4L	6X5LTR	20LTR	208LTR	

5.Brake Fluid

PACE Lubricant brake fluid is blended from glycol ethers and polyglycols. Brake fluid is engineered for reliability and safety in braking systems, meeting stringent standards for dependable performance across various vehicles. This fluid is essential in maintaining the effectiveness of the brake system, ensuring responsive and safe braking.

6.Motorcycle Engine Oil

PACE Motorcycle Engine Oil is specially formulated with high viscosity index base oils and enriched with the latest additive technology, specially developed for new generation 2-Stroke and 4-Stroke gasoline engines. Meets and exceeds performance requirements for motorcycles of all leading manufacturers. Possesses special frictional properties required for smooth operation of wet clutches used in all types of two-wheelers and threewheelers.

7. GREASE

We are manufacturing two kinds of greases

1. CALCIUM GREASE

2. LITHIUM GREASE

PACE greases are manufactured for the lubrication of automotive chassis components, wheel bearings, clutch bearings, universal joints and ball joints of steering and suspension systems of passenger cars, trucks, farm tractors and most other types of heavy equipment operating under moderate conditions.

8.Coolant (Anti-freeze)

PACE Anti-freeze coolants are a high quality, heavy duty fully formulated ethylene glycol engine coolants, and are offered both, in concentrated and premixed ready to use form. The coolant circulates through the engine and radiator, absorbing heat from the engine and dissipating it into the air. This process helps keep the engine at a constant temperature, which is important for optimal performance.

Types of Coolants:

COLOR: BLUE AND GREEN

Types of Coolants:

1. 30% Concentrated
2. 50% Concentrated
3. 100% Concentrated
